**H1N1 Flu Update:** Mr. Jarvis updated the Board of the H1N1 vaccine distribution. We have received 100 live, attenuated vaccines. We have not received any others. We still have not used any vaccines; still reporting 0 uses to the Department of Public Health. We have requested 11,100 vaccines that we still have allocated to us. There are no scheduled clinics; until Mr. Jarvis gets the vaccines in hand and the schools are done, there will be no clinics. When we do receive enough vaccines to hold a clinic, Mr. Jarvis said there will be a meeting at least two weeks before the clinic, Reverse 911 will notify residents, there will be a press release and a posting will be on the cable channel.

Mr. Jarvis was given 30 seasonal flu vaccines to give to all town employees. Those will be used next Tuesday, November 10<sup>th</sup>. Mr. Jarvis is hoping to get 170 more seasonal vaccines so another clinic can be held for the general public.

There was a problem with the vaccine manufacturer. The egg based vaccine was not growing properly. They are hoping to have it corrected by the middle of November.
